

ADMIN

Video,  
Audio,  
Text,

external media files not present on LAN

For Video Conferencing, Text Messaging  
and for teacher to present different  
media to students, would require  
Admin's permission to access his IP

For remote Desktop  
control:  
Serve screencast over  
LAN  
and simulate the mouse  
coordinate changes  
on the client side

Current state of the system
